TAFT INDIGNANT AT MILLIONAIRES

Beverly, Mass.-Speaking in behalf of the Indian and negro industrial schools at Hampton, Va., of which he is a trustee, President Taft voicee his indignation at the necessity that such usefui institutions must beg for money and at the failure of the nation's many millionaires to come to their rescue with contributions. In the graduation of Booker Washington, the president said, Hampton has done

enough to entitle it to the gratitude of

the country. The meeting was held at the home of Mrs. T. Jefferson Coolidge, at Mantors and they did | chester, Mass. Governor Mann of Virme no good, so my sister advised me to try Lydia E. > "I always come in with a living protest-a point of indignation-that an institution as useful as that is, throughout the country," said the president, "forming as it does, the basis for our industrial schools and suggesting a remedy and method of meeting the negro problem still should be on a basis necessitating the organization of such meetings as this and the begging by such men as you see before you for money enough to run it from year to year. We have lots of millionaires in this country and why cannot the contributions be sufficiently large to put such an institution as Hampton on a basis that shall be self-support-

Appetite Not a Necessity. Dr. John R. Murlin of New York, assistant professor of physiology at the Cornell university medical college, in an article in the October number of the Journal of the Outdoor Life, compares the food we eat to the fuel used in furnishing steam and power for an engine. In selecting our food he says that we should eat enough to furnish energy for the day's work, but that much more than this is not needed He holds that the appetite is not a necessity for good digestion. "There is no fallacy of nutrition," he says, "greater than that which supposes that a food cannot be digested and utilized without appetite." Most of the food we eat, fully four-fifths, goes to supply energy for our every-day tasks, while less than one-fifth goes to supply building material.

WHAT'S THE MATTER WITH YOUR BABY?

The young mother—and many an old one, too—is often puzzled to know the cause of her child's ill nature. The loudness of its crying does not necessarily indicate the seriousness of its trouble. It may have nothing more the matter with it than a headache or a feeling of general dullness. It cannot, of course, describe its feelings, but as a preliminary measure you are safe in trying a mild laxative.

Nine times out of ten, you will find it is all the child needs, for its restlessness and peevishness are perhaps due to obstruction of the bowels, and once that has been remedied the headache, the sluggishness are perhaps due to obstruction of the bowels, and once that has been remedied the headache, the sluggishness and the many other evidences of constipation and indigestion will quickly disappear.

Don't give the little one salts, cathartic pills or nasty waters, for these will act as purgatives, and they are too strong for a child. In the families of one a postal card will do.
